

OSAYUKI OBAZEE

New Swan Lane, West Bromwich B70 0FU | 07867026826 | Wised4536@gmail.com

SUMMARY

Innovative Software Developer with 2+ years of experience, specializing in web development and building user-focused applications. Building scalable products with great user experiences. Proficient in crafting responsive and interactive web applications using React, JavaScript, and PHP, with a focus on modern UI/UX practices and performance. Experienced in developing dynamic frontends and integrating backend functionality, ensuring efficient and reliable applications. Building real-world projects that strengthen skills in state management, data handling, and application logic. Continuously learning and improving in areas such as scalable systems, clean code, and collaborative development, with a growing interest in open-source and impactful software solutions.

EDUCATION

BSc (Hons) Computer Science

University of Wolverhampton Wolverhampton, UK	September 2025 – Present
---	---------------------------------

Relevant Modules: Fundamentals of Computing, Internet Software Architecture, Introductory Programming & Problem Solving, Interactive 3D Applications and Academic Skills, Introduction to Object-Oriented Programming, and Computational Mathematics.

Key Skills Developed: I developed strong foundations in programming, problem-solving, and object-oriented design, with the ability to analyze computational problems and implement efficient solutions. I gained experience in software architecture, mathematical reasoning, and building interactive applications, alongside strengthening academic research and technical communication skills.

Full-Stack Development Bootcamp (Certificate of Completion)

Edlivky Coding Academy International Edo State, Nigeria	October 2024 – April 2025
---	----------------------------------

Relevant Modules: HTML, CSS, Tailwind CSS, JavaScript, React, PHP, MySQL, MongoDB, Git & GitHub

Key Skills Developed: I built and deployed full-stack applications, developing responsive UIs, integrating APIs, managing databases (SQL & NoSQL), and using Git/GitHub for version control and collaborative workflows.

PROJECTS

Yukicare – Hospital Management System (Full Stack Web App)

- Built a full-stack hospital management system with secure authentication and a dedicated login portal.
- Developed modules for managing patients, staff, medication, and equipment tracking.
- Integrated React frontend with PHP/MySQL backend to handle structured data and user interactions.
- Implemented role-based access and organized database design to support reliable system usage
- Utilized: PHP, MySQL, Git

AlphaBuild – Construction Company Website

- Designed and developed a responsive website to showcase company services and projects.
- Built a clean, modern UI with a focus on usability and mobile responsiveness.
- Improved overall site structure and navigation for better user experience

- Utilized: [Next.js](#), Tailwind CSS, JavaScript, Git

Ayomama – Pregnancy Support Mobile App

- Developed a mobile app to support pregnant women with tracking and emergency-related features.
- Implemented features for monitoring pregnancy progress and accessing support.
- Designed an intuitive interface prioritizing accessibility and ease of use
- Utilized: JavaScript, React Native, Tailwind CSS, Git

Recycling Unity Game

- Created an interactive Unity game to promote recycling awareness through gameplay.
- Designed core mechanics and user interactions to deliver an engaging experience.
- Applied object-oriented programming principles within a game development context.
- Utilized: Unity, C#, Object-Oriented Programming

TECHNICAL SKILLS

PROGRAMMING	TOOLS	SOFT SKILLS
HTML	GIT	PROBLEM SOLVING
CSS	GITHUB	COMMUNICATION
JAVASCRIPT	FIGMA	LEADERSHIP
REACT.JS	CAPCUT	CREATIVITY
NEXT.JS	MONGO DB	
PYTHON	MYSQL	
PHP
